

Tania Granco- Parent

Academy of Aerospace and Engineering Elementary

Testimonial:

I have 2 children at AAEE. One is in 1st grade and another in Pre-K. We tried for 3 years in the lottery to get my son in and the school and we very grateful to be a part of this program. My son entered kindergarten with an IEP and received individualized services as well as participating in summer school. Now in first grade he has placed out of the SPED services and is thriving in the STEM environment and enjoys going to school. Please give more funding so that these schools can continue to service the community.
